

SINCE 1986

 **MADE IN CHINA**

ABOUT US

TIANRUI GROUP was established in 1986, the earliest manufacturer of poultry equipment and setter of poultry equipment industrial standards in China.

30 Years' Equipment Producing Experience. Focusing on manufacturing, researching and developing automatic layer, broiler and pullet raising equipment, TIANRUI provides customers with poultry farming solutions, including product research and development, project design, production, installation and service.

Over 20 Years' Chicken Raising Experience. TIANRUI has a 600,000 birds modern layer demonstration farm, a 1,000,000 pullets' demonstration farm, a broiler farm with an annual output of 1,000,000 birds and an organic fertilizer producing and processing base with the annual production capacity of 50,000 tons.

We have passed the authentication of ISO9000, ISO14000, OHSAS18001 and got 359 national patents. Our products are exported to many foreign markets, including more than 40 countries in Asia, East Europe, South America, Middle East and Africa.

TIANRUI not only has been the supplier of each cooperative partner, but also their farming consultant.

Let's make chicken raising easier together

> A TYPE LAYER RAISING EQUIPMENT

INTRODUCTION OF PRODUCT

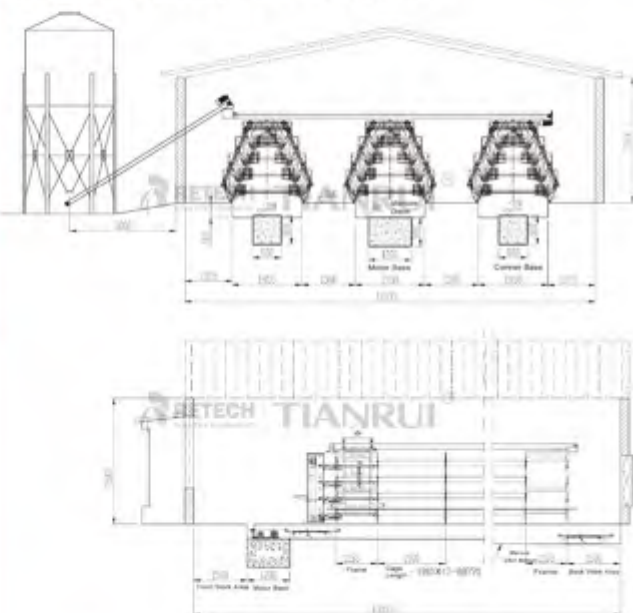

1. Long service life, high stability.
2. Well ventilated, comfortable environment.
3. Low cost of the equipment, easy to operate.
4. Low proportion between forage and egg, low production costs.
Applicable to artificial or semi-automatic, open chicken house raising

AUTOMATIC LAYER RAISING EQUIPMENT

A TYPE LAYER RAISING EQUIPMENT

Drawing of A Type Layer Raising Equipment

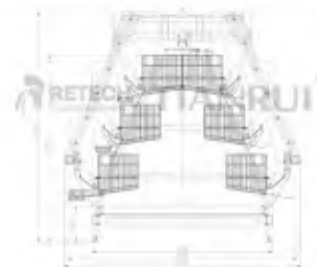

Explanation

In a house of 100m*11.5m*3.5m, 3 lines of 4 tiers equipment can be installed with 47 units of cages each line, and total birds quantity can reach 18048.

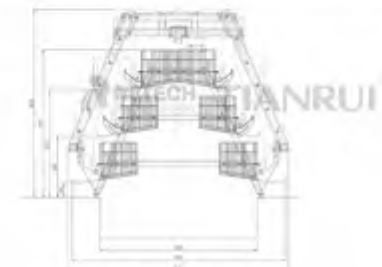

In a house of 100m*15m*3.0m, 4 lines of 3 tiers equipment can be installed with 47 units of cages each line, and total birds quantity is also 18048.
