

SINCE 1986

 **MADE IN CHINA**

ABOUT US

TIANRUI GROUP was established in 1986, the earliest manufacturer of poultry equipment and setter of poultry equipment industrial standards in China.

30 Years' Equipment Producing Experience. Focusing on manufacturing, researching and developing automatic layer, broiler and pullet raising equipment, TIANRUI provides customers with poultry farming solutions, including product research and development, project design, production, installation and service.

Over 20 Years' Chicken Raising Experience. TIANRUI has a 600,000 birds modern layer demonstration farm, a 1,000,000 pullets' demonstration farm, a broiler farm with an annual output of 1,000,000 birds and an organic fertilizer producing and processing base with the annual production capacity of 50,000 tons.

We have passed the authentication of ISO9000, ISO14000, OHSAS18001 and got 359 national patents. Our products are exported to many foreign markets, including more than 40 countries in Asia, East Europe, South America, Middle East and Africa.

TIANRUI not only has been the supplier of each cooperative partner, but also their farming consultant.

Let's make chicken raising easier together

> **AUTOMATIC BROILER RAISING EQUIPMENT**

INTRODUCTION OF PRODUCT

The automatic bird-harvesting H type broiler raising cage is the most advanced broiler raising equipment. It can realize not only feeding, drinking, manure removing automatically, but also broiler-harvesting automatically. It is suitable for large-scale broiler farm.

AUTOMATIC BROILER RAISING EQUIPMENT BROILER BATTERY CAGE

Drawing of Automatic Bird-harvesting Broiler Raising Equipment

Explanation

In a house of 97m*20m, if 3 tier cages are installed, 30 units of cage per line, the height of side wall should be 4m, and total birds quantity is 59400; if 4 tier cages are installed, 30 units of cage per line, the height of side wall should be 4.6m, and total birds quantity is 79200.

20 YEARS' CHICKEN RAISING EXPERIENCE 30 YEARS' EQUIPMENT PRODUCING EXPERIENCE

technical parameter

length : 3000mm,width : 1820mm, height : 765mm.

Suggested birds quantity per unit cage:

Slaughter weight (kg)	Birds quantity/per cage
1.50	182
1.80	152
2.25	122
2.50	110

Features

- 1.The floor is made of PP with good elasticity, raising the efficiency of birds-harvesting.
- 2.The luminance of the LED light can be adjusted to meet the demands of the different day old bird.
